Art Unit: 2871

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Application/Control Number: 10/804,991 Page 3

Art Unit: 2871

5. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's admitted prior art (APA), figure 3, in view of Hwang, US Patent 6,891,582.

Regarding the above claims, APA, figure 3, discloses a liquid crystal display (LCD) apparatus comprising:

- . an LCD panel (300);
- . a driver printed circuit board (PCB 310);
- . a backlight assembly (320);
- a received container (part between backlight 320 and PCB 310);
- . a digitizer (330).

APA, figure 3, however, does not disclose first and second protrusion forming on a back side of the received container as well as the driver PCB including third and fourth connection portions corresponding to the first and second connection portions. Hwang does disclose protrusions can be formed form the a mold frame structure (i.e., received contained)(see figure 4) and forming connection portions corresponding to PCB connection portion (see figure 7) and connected together through a screw/screw hole (50). Therefore, it would have been obvious to one skilled in the art at the time of the invention was made to employ the APA's container having protrusions for forming connection portions to support the driver PCB through the PCD connection portions as shown by Hwang in order to stably ground the PCB (see col. 6, lines 20-42).

Application/Control Number: 10/804,991 Page 4

Art Unit: 2871

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung Nguyen whose telephone number is 571-272-2297. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
